Cross Cultural Consultants

Cross Cultural Consultants (CCC) provide training, mentoring, facilitation and other services to strengthen our clients' capacity for cross cultural communication. We work in development settings including international development, Indigenous Australia and Culturally and linguistically diverse communities.

Established in 1989 with a network of associates across Australia we provide a national service that also extends into South East Asia and the Pacific.

About The Training

This one day course introduces skills and strategies for communicating and working effectively across cultures with a focus on working with Aboriginal and Torres Strait Islander people and cultures. This program will assist non-Indigenous people who are working in indigenous settings. The training program will provide a framework for looking at culture and cultural difference, individual versus collectivist cultures and other modules that can be tailored to the needs of the participants, including: kinship, language, history, diversity and cultural change and rapport and networks.

Our training is participatory with an emphasis on adult learning principles. CCC draw upon participant's experiences, strengths and needs. We aim to extend people's frameworks, networks and capacity - not just provide information.
